For Baking Success -This Oven Test

Success on some baking days can be expected no matter what flour you use. But constant success is rarer. It can be assured in only one way. The miller must select his wheat by oven test. So from each shipment of wheat we take ten pounds as a sample. We grind this into flour. Bread is baked from the flour. If this bread is high in quality. If this bread is high in quality, arge in quantity, we use the shipment from which it came. Otherwise we sell it. Constant baking success comes as a matter of course from flour bearing this name

Panama Canal

Canada of the Panama canal is growers of \$250,000,000 a year. not sufficiently realized. It was considered very fully by E. Bi Vrooman, at a meeting of the Royal Canadian Institute in London, at which he declared that the canal will so increase shipping on the Pacific Coast that round that way will be drawn "two thirds of the surplus re sources of the Dominion."

In his address Mr. Vro ot down to particulars. He said that the grain of Alberta and of part of Saskatchewan will go to Liverpool by way of Vancouver and the canal, thus "throwing up across Canada a new economia continental divide." He points out that in Canada the price of wheat is the Liverpool price, less the cost of getting it there, and he estimates that wheat via Pan ama will give the Alberta farmer seven cents a bushel more in summer and fifteen cents a bushel more in winter than heretofore, The canal, he says, will add ten cents a bushel to the value grain to the man who grows
